

20,000 LEAGUES UNDER THE SEA

ERRATA 27.01.26

List of errata in published score and parts

Bar 207 (Captain Nemo) - this should say “crotchet = 120” (not minim). The intention is for the previous *rallentando* to have reached approximately 120 bpm, before then halving over the barline, so that crotchet becomes 60bpm.

Bar 269 - Percussion 2. This should be *Glockenspiel*, not *Xylophone*

Bar 342 - remove *mf* in baritones

Clarifications

Bar 1 - both Bb Basses should play, with one player down an octave if possible

Bar 361 - this is meant to be a written A-flat in 1st baritone! The intention is to leave a continued elusiveness as Captain Nemo goes on his way. I suggest bands which want to avoid this sounding like an out of tune G should make sure this A-flat is not flat – in other words there should be a proper, discernible semitone between 1st baritone (A-flat) and 2nd trombone (G)
